

# Let's Do It Again!

EnigMarch 2026 Metapuzzle

By Zoey Foley

EnigMarch 2026 has come to an end, but we can reminisce about all the puzzles we've seen, and maybe take time to solve the ones we didn't get to.

Each mini-puzzle below leads to a single letter, or a word that can be abbreviated as a single letter. The resulting phrase will lead to another phrase, which will then lead to a final 6-letter answer (if you do it again).

A table with links to all my puzzles from this year's EnigMarch can be found here:
